- Newari: Intermediate

PROFILE

I'm an aspiring MERN Stack developer with skills in MongoDB, Express.js, React.js, and Node.js. I love learning and building new web applications. I'm excited to use my skills to work on impactful projects and keep growing as a web developer. I have a foundation in JavaScript, HTML, and CSS, and have developed significant expertise in Full Stack development using the MERN stack through hands-on experience in projects.

SKILL

- Good understanding of HTML, CSS, and JavaScript for creating interactive user interfaces.
- Proficient in using frameworks like Bootstrap and Tailwind CSS for responsive designs on different devices.
- Strong knowledge of React, including creating components, managing state, and reusing code
- Experience building server-side applications with Node.js, including handling HTTP requests and responses.
- Familiar with popular Node.js modules like Express.js for building web APIs.
- Experience working with MongoDB for data modeling and interaction.
- Skilled in using Git for version control and collaboration on development projects.

PROJECTS

- Developed a Bakery website using HTML and CSS
<https://github.com/shriyabhandari/bakeryproject>
- I contributed to building a Nursing blog website with a team, using the MERN stack, focusing on blog posting and user authentication.
